

AUTOMATION

Sensors 1 & 2

This seminar is set up in an open-learning environment. Do you have a difficult sensor application that you need help with? Bring it with you and we'll work through the best solution to fit your needs.

LEVEL 1

Wednesday, August 28

Attendees will learn the differences between inductive and capacitive proximity switches, as well as the basic sensing modes of photoelectrics.

LEVEL 2

Thursday, August 29

Covering the advanced usage of items such as lasers, ultrasonic analog, background/foreground suppression; each attendee will take that next step in knowledge application of proximity switches and photoelectrics.

**Wednesday, August 28 -
Thursday, August 29**

8 AM - 3 PM

**SMC Sedalia
1616 W Main St
Sedalia, MO 65301**

Cost

1 Day: \$625

2 Day: \$950

Includes Lunch
